

A PCA plot showing the first two principal components. The x-axis is labeled 'Axis.1 [55.6%]' and the y-axis is labeled 'Axis.2 [30.2%]'. The plot features two distinct clusters of data points. The first cluster, colored red, is located on the left side of the plot (negative Axis.1 values). The second cluster, colored teal, is located on the right side (positive Axis.1 values) and is enclosed by a teal ellipse, indicating its covariance structure. The background has a light gray grid.
