

A scatter plot on a light gray grid with x and y axes ranging from -1.0 to 1.0. The plot displays two overlapping ellipses and a set of data points. The red ellipse is centered at approximately (-0.2, 0.2) and has a semi-major axis of about 0.5 and a semi-minor axis of about 0.3. The teal ellipse is centered at approximately (0.2, 0.2) and has a semi-major axis of about 0.6 and a semi-minor axis of about 0.4. The data points are colored red and teal, corresponding to the two ellipses. There are 15 red points and 15 teal points scattered across the plot, with some points falling within the ellipses and others outside.
