

The bar chart displays the distribution of 16S rDNA sequences for two sample classes: Feces and Saliva. The y-axis represents the number of sequences, ranging from 0 to 100. The x-axis shows 16S rDNA sequences, with a vertical line separating the Feces and Saliva sections.

**class: Feces**

16S rDNA Sequence	Number of Sequences
1	10

**class: Saliva**

16S rDNA Sequence	Number of Sequences
2	20
3	10
4	100
5	100
6	20
7	50
8	20
9	100
10	100
11	20
12	50
13	100
14	40
15	60
16	80
17	60
18	20

class: Saliva
